

Third-Party Logistics Solutions

Increase space utilization and meet increasing demands with storage solutions for 3PLs from the Space Optimization Experts.

Carton Flow for Pallet Rack

Innovative carton flow solution that drops into existing racking

- Ensures FIFO stock rotation
- Maximizes space utilization
- Increased pick facings reduce search and travel time
- Increase throughput up to 150%
- Available in dedicated roller lanes or universal wheel beds
- 7-year Warranty

span//track

High-Density Storage

Dynamic high-density storage for faster each picks

- Increases storage density by up to 60%
- Reduce labor costs up to 40%
- Cell capacity of 35lbs., column capacity of 240lbs.
- Ergonomically designed
- Built-in label holders
- 5-year warranty

speed//cell

Mobile Carton Flow

Mobilize inventory and improve ergonomics for your picking processes

- Increase space utilization by up to 50%
- Boost efficiency by 30%
- Minimize reaching to reduce injury and fatigue
- Easy assembly in under 1 hour
- Standard caster footplates allow any design to mobile
- 7-year Warranty

flow//cell

Pallet Handling

Improve storage density and ergonomics with less bending and straining

- Convert static pallet positions to dynamic
- Keep products at the point of pick
- All steel construction for maximum durability
- Maximize storage density by eliminating the need for entry clearance

Picking Carts

Mobilize your order staging and picking processes

- Constructed from the same lightweight, yet heavy-duty materials as standard SpeedCell
- Increases pick facings
- Reduces travel times
- Increased order accuracy
- Pick multiple orders at the same time for maximum efficiency
