

Manufacturing Storage Solutions

Increase space utilization and boost production efficiency with manufacturing storage solutions from the Space Optimization Experts.

Modular Mobile Carts

Mobilize your staging and picking processes

- Standard caster footplates allow any design to be mobile
- Relocate inventory in minutes for easy line re-balancing
- Casters allow flow racks to be relocated for 5S sweeping

flow//cell

Single Lane Cell

Improve organization and ergonomics for assembly

- Narrow units with high profile tracks for fitting under or around equipment
- 24" of unsupported overhang improves ergonomics

flow//cell

Supermarket Racks

Increase storage efficiency and space utilization

- Ensures FIFO stock rotation
- Maximizes space utilization away from the line
- Increased pick facings reduce search and travel time

roller//rack

Lineside Storage

Create reconfigurable storage to accommodate line and process changes

- Reconfigurable units to match today and tomorrow's demands
- Low profile beams allow for increased storage density, freeing up valuable space on the assembly line

flow//cell

Workstation

Support Lean principles by keeping inventory organized and maximizing efficiency

- Accessory trays, benches, and tool mounts to improve the functionality of flow racks
- Great for sub-assembly, kitting, testing, and packing stations
