

Beverage Storage Solutions

Increase space utilization and meet increasing demands with storage solutions for beverage storage from the Space Optimization Experts.

Case Picking

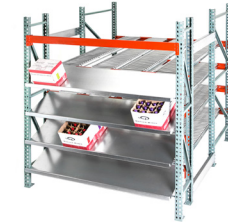

Innovative carton flow solutions that drop into existing racking

- Engineered to order for specific applications
- Increase throughput up to 150%
- First-In-First-Out stock rotation
- Handles up to 100 lbs per foot
- Available in dedicated roller lanes or universal wheel beds

Each Picking

Tilted shelves and knuckled tracks provide dense storage and ergonomic picks

- Increase storage density by up to 40%
- Excellent access and visibility for efficient and accurate picks
- Easy mounting - can be installed easily in most rack structures
- Multiple stop height options
- 7-year warranty

Bottle Flow

Keep bottles moving to pick face for faster, safer, and more accurate picks

- Available in three widths
- Adjustable front bracket for pitch control
- Rubber bumpers in front to cushion impact and protect labels
- Easy assembly
- Can be integrated alongside Spantrack

Pallet Handling

Improve storage density and ergonomics with less bending and straining

- Convert static pallet positions to dynamic
- Keep products at the point of pick
- All steel construction for maximum durability
- Maximize storage density by eliminating the need for entry clearance

Keg Flow

A better way to handle beer keg storage

- Increase storage density by up to 200%
- Handles 1/6 and 1/4 slim kegs
- Reduces travel times
- Keeps beer fresh with FIFO stock rotation
- High roller stop for easy ergonomic keg "roll-out" and less wear on aluminum kegs
